Alfa Laval TJ TZ-750 Rotary Jet Head - Portable

Fast, Effective Impact Cleaning
Application

The Toftejorg TZ-750 rotary jet head provides 3D indexed impact cleaning over a defined time period. It is automatic and represents a guaranteed means of achieving quality assurance in tank cleaning.

The device is suitable for storage and transportation tanks and vessels between 3,000 and 7,000 m³. Used in chemical processing and the pulp and paper industries.

Working principle

The flow of the cleaning fluid makes the nozzles perform a geared rotation around the vertical and horizontal axes. In the first cycle, the nozzles lay out a coarse pattern on the tank surface. The subsequent cycles gradually make the pattern more dense, until a full pattern is reached after 4 cycles.

TECHNICAL DATA

Lubricant: ................... Self-lubricating with the cleaning fluid
Standard surface finish: .......... Ra 0.5µm exterior
Flow rate: ................... 38 - 83 m³/h
Max. throw length: .............. 30 - 40 m
Min. required passage: .......... See dimension drawings

Pressure

Working pressure: ................ 5 - 12 bar
Recommended pressure: .......... 5 - 10 bar

Cleaning Pattern

The above drawings show the cleaning pattern achieved on a horizontal vessel. The difference between the first cycle and the full pattern represents the number of additional cycles available to increase the density of the cleaning.

Certificates

- 2.1 material certificate and ATEX.

Standard Design

The choice of nozzle diameters can optimise jet impact length and flow rate at the desired pressure. As standard documentation, the Toftejorg TZ-750 can be supplied with a “Declaration of Conformity” for material specifications.

PHYSICAL DATA

Materials

316L (UNS S31603), 1.4401, PTFE, PVDF, Carbon, EFTE.

Temperature

Max. working temperature: .......... 95°C
Max. ambient temperature: .......... 140°C

Weight

Portable: .......................... 12.1 kg
Fixed: ............................ 3.6 kg

Connections

Standard thread: .................. 2½” Rp (BSP), NPT
